

# Start-up Submissions for 2020 Chemical Ventures Conference

## Submission Deadlines:

**First submission batch - February 28, 2020**

**Second submission batch - March 27, 2019**

---

Selection dates:

- First batch - March 13, 2020 (first batch companies selected)\*
- Second batch - April 17, 2020 (remaining companies selected)

*\* Submissions not selected in the first round will be automatically re-submitted and included in the second selection round.*

---

- Only submit non-confidential info to this form. Any material labeled as "confidential" will still be considered non-confidential by us and the reviewers
  - Chemistry must comprise an integral part of the startup's technology and business focus
  - Startups do not need to have received prior professional investment but must be actively seeking funding
  - A manager/executive must present to pitch at the event
- 

- **IMPORTANT!!** This submission requires that you submit a non-confidential slide deck about your startup.
- Your non-confidential slide deck should include the following slides in the order below:
  1. Contact slide
  2. Background and overview of technology - how it is being or will be leveraged into a commercial opportunity
  3. Financing plan (pre-\$ valuation, amount sought, use of funds, cap table if it exists)
  4. Market (unmet need, size/opportunity for growth, entry or sales plan, barriers to adoption)
  5. Risks (technology, regulatory, reimbursement, market)
  6. Competition (current gold standard, competitors)
  7. Intellectual property strategy, proprietary assets/barriers to others entering the market
  8. Management team description, people (management, board, advisors, inventors)
  9. Possible acquirers/exit strategy

**SUBMIT YOUR NON-CONFIDENTIAL SLIDE DECK ALONG WITH THIS COMPLETED FORM**

**TO: [submissions@ncet2.org](mailto:submissions@ncet2.org) with the subject: ["Your company name" - 2020 CVC]**

**Phone Number: \***

Area Code    Phone Number

**Has your technology been licensed from a university? \***

Yes

No

I don't know

**If you answered "yes", which university was it licensed from? \***

**Is the license exclusive? \***

Yes

No, it's non-exclusive

I don't know

**Main Category Area: (Select one that best applies) \***

- Advanced Manufacturing
- Clean Tech and Chemicals
- Pharmaceuticals and Medical Devices

**Sub-categories (Select all that apply) \***

- Additive manufacturing
- Aerospace
- Alternative Fuel
- Big Data
- Clean Technology
- Construction and building materials
- Cybersecurity
- Energy
- Energy Storage and battery technology
- Environmental Sustainability
- Food and Nutrition
- Green chemistry
- Health IT
- Instrumentation
- Internet of Things
- Light-weight materials and fibers
- Medical Devices
- Nanotechnology
- Pharmaceuticals
- Robotics/Droids
- Sensors
- Solar
- Transportation
- Water
- Advanced composites manufacturing
- Agri-bio/ Agriculture
- Artificial Intelligence
- Biotechnology
- Coatings
- Cosmetics and Personal Care
- Electrical and Electronics
- Energy generation
- Engineering
- Flexible hybrid electronic circuits
- Genomics
- Hardware
- Infrastructure
- Integrated Photonics and photonic circuits
- Life Sciences
- Materials
- Mobility and Transportation
- Packaging
- Power electronics Manufacturing
- Semiconductors
- Software
- Storage
- Veterinary medicine

**Fundraising stage \***

- Pre-Seed
- Series A
- Seed
- Series B or later

**How much revenue has your company generated? \***

- No revenue
- Under \$1 million in revenue

Between \$1 million and \$5 million

\$5 million or more

**Short company description. (250 word limit) The company description should clearly express the use of chemistry and how it is being leveraged into a commercial opportunity.\***

0/250

**Where did you hear about this submission opportunity? \***
